## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 05, 2005 has been entered.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-15, 17-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Concerning claims 1, 10-15, 17, clarification on how “the simplified image data is generated separately from the original image data”. How separately the simplified image data and the original image data are generated? Are these images not from the same image? Are these images different from each other? In addition, “its data volume” should be defined. Is it the data volume of the simplified image data, the original image data or the retrieval result? If it is the data volume of the retrieval result, how can a result have a data volume reduced?

4. Claim 1 recites the limitation "the original image data", "the retrieval result", "the retrieval image data". There are insufficient antecedent basis for these limitations in the claim

Art Unit: 2626

since "image data" and not "original image data" was previously mentioned, "retrieval result displaying function portion" and not "retrieval result" was previously mentions, and "retrieval items" and not "retrieved image data" was previously mentioned in the claim.

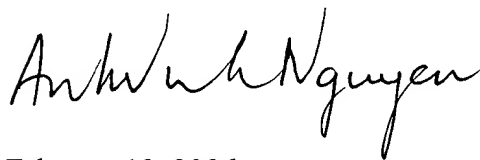

The same with claims 10-15, 17, there are insufficient antecedent basis for the limitations of "the original image data", "the retrieval result", and "the retrieval image data" in the claims.

Claims 2-9, 18 are also rejected because of being dependent on rejected claims.
